CENTRAL FAX CENTER

REMARKS

SEP 17 2007

By entry of this Amendment, independent Claims 1 and 17 have been amended to include the salient limitations of Claim 5, which was indicated by the Examiner to be allowable if re-written in independent form. Accordingly, all of the claims recite that (1) the body mount support bracket includes a central body portion having a pair of leg portions depending therefrom, and (2) internal stresses are created within the body mount support bracket by moving the leg portions of the body mount support bracket relative to the central body portion of the body mount support bracket to create the internal stresses within the body mount support bracket. Thus, it is believed that the application is in condition for allowance.

Respectfully submitted,

Richard S. MacMillan
